Status	Milestone		
Actual	-		

Description

Verify that the user can vote for a car model, see confirmation message and that the vote count is updated.

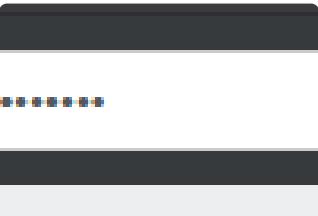

Preconditions

Valid user account exists (ex. login: JHwell@31, password: Jnth@n!23)

Postconditions

The "Votes" value for the selected car increases by exactly 1.

Steps to reproduce

#	Step	Action	Expected Result
1	Open provided site.	https://buggy.jutttestit.org/	Homepage loads successfully.
2	On top of the navbar insert provided credentials.		
2.1	Click on the login field and insert provided login.	Login: JHwell@31	Field is properly populated with login.
2.2	Click on the password field and insert provided password.	Password: Jnth@n!23	Field is populated with password and properly hidden.
			
3	Click on the 'Login' button.		User is successfully logged in.
4	Click on the Lamborghini icon.		User is being redirected to a different URL. Lamborghini background should be visible.
5	Scroll down until you see different cars photos.		User should see different types of cars, sort buttons (Model, Rank, Votes) and Comments sections.

Step

Action

Expected Result

Model	Rank	Votes	Comments
	1	8729	cegh nice car holo lol View more
	2	3219	commentario Delete holo py View more
	3	2462	holo lol okay first great View more

- 6 Click on any model that you like.
- 7 On the right side, next to the car photo insert any comment. ex. "It has really nice tires!"
- 8 Click the "Vote" button.
- 8.1 Verify that the total vote count increases by 1 after voting.
- 9 Scroll up until you see the account navbar again.
- 9.1 Click "Logout" button.

The user is redirected to the car details page.

A confirmation message appears: "Thank you for your vote!"

The "Votes" value for the selected car increases by exactly 1.

The user is logged out and should NOT be redirected to the homepage.
